McMaster University, Hamilton  
2006

**About Me**

I have worked in the TV and Film industry for the last 11 years on many different productions: Canadian, American, UK and European Films and TV series. I enjoy working on big budget productions as well as small ones. Each of them have their own set of demands and rewards. I enjoy immensely the organizational aspects of Production but I have also been able to flex my creative muscles too. I have worked as a Producer on a successful play, a couple of short films and recently I have been helping prep a web series which the CBC have commissioned."

My experience in this fast paced industry has left me with skills that could easily be brought into many other work environments. Administrative work, coordinating, accounting, working with Cast and Crew members, vendors, agencies and unions. Interacting with the public and multitasking for 12 hour days in high stress situations. I'm very good at what I do and I think I would be an asset to any company.
